

Job Title: Technical Director
Location: Historic Hollywood Location, with travel to Venice and Downtown LA locations as needed
Terms: Full-Time, Salaried
Salary: \$70,000–\$85,000 annually, plus benefits (health insurance and paid time off)

About Us:

At Pacific Event Services (PES), we're proud to be small enough to care, big enough to handle it all. As an alternative to traditional in-house A/V providers, we believe in delivering high-touch, immersive experiences that go far beyond basic rental services. Our team values transparency, collaboration, and creativity—ensuring every event we support is elevated, memorable, and expertly executed.

The Role:

We are seeking a Technical Director to lead the technical execution of events at one of Hollywood's historic venues. This role is ideal for an experienced, solutions-focused A/V professional who thrives in dynamic environments and is passionate about creating seamless, high-impact event experiences.

The Technical Director will be the point of contact on every event and coordinate with AV sales and the end client on what will be provided for each event.

Responsible:

- Serve as the on-site Technical Lead, stepping into key technical roles during events as needed to ensure smooth execution
- Troubleshoot and resolve issues related to audio, video, and lighting systems during pre-production and live events
- Maintain, clean, and ensure all A/V equipment is in proper working condition; manage and update inventory regularly to support event readiness
- Collaborate directly with clients to understand and fulfill their technical needs and expectations
- Coordinate with the sales team when changes or additions are made to existing event plans
- Accurately document and track event specifications using both PES systems and in-house platforms
- Source and coordinate rental of additional A/V equipment from third-party vendors when required
- Recruit, hire, and schedule technical staff according to event requirements and client expectations
- Participate in weekly internal meetings with both PES and in-house teams to align on upcoming events and operations

Candidate Requirements:

- Strong working knowledge of audio, video, and lighting systems with the ability to troubleshoot in high-pressure environments
- Proven experience managing teams and coordinating production logistics
- Must maintain a professional appearance and demeanor at all times
- Flexible availability, including evenings and weekends, based on event schedule
- Ability to travel and work across all a handful of locations across Southern California

Join a team that values integrity, excellence, and innovation in every event we produce. If you're ready to take ownership of high-profile productions and bring world-class experiences to life, we'd love to hear from you.
